Our Manufacturing Facility

Our manufacturing facility, complete with water jet cutting machine, gives us complete control over every design we produce.

Our precision cutting technologies allow us to design and cut the most intricate thermoplastic graphics available.

We pride ourselves on using our own experienced and professional installation teams who will work with you to find a convenient, safe and none intrusive time to complete your playground. All of our install teams are DBS checked.

Our philosophy is simple. We create and install unique thermoplastic graphics coupled with first class customer service.

Board Games

Board Games can develop strategic and mathematical skills from a young age. Children can learn to work in teams or play alone whilst enhancing their memory and mastering the rules and boundaries of the games.

Your efficient service and great attention to detail were very impressive and commented on by all who saw you working. I was also particularly delighted that you managed to pick up the job at such short notice.

Thank you again for an excellent job very well done!

Shapes and Prints

Available in any colour, our shapes and footprints are ideal for lining up, fire drills and creating routes around your play area.

Targets

Targets encourage children to interact with each other and develop their coordination and mathematical skills. Target lines can be used to increase the difficulty as children develop and can also be utilised in sports practice.

“Playtimes are much better because everyone plays differently and there are different things to do now.” Holly Y5

“The playground markings make our school look an exciting place to be.” Hannah Y6

“People will look at our playground and know that children are important in our school because children need to play and our playground looks fun.” Charlie Y6

“My favourite game is playing Corners with the sun and cloud and rainbow.” Mackenzie Y2

“It’s much easier to engage the children in playing proper games now” Matt, Midday Supervisor

Removals

We are pleased to offer a comprehensive playground marking removals and playground cleaning service. We use a number of methods to clean the tarmac surface of your playground and remove existing thermoplastic or painted playground markings.

Removing your existing markings is the best way to ensure your new thermoplastic graphics look at their best.

The results of the removals process often depend on the quality of your ground.

We are pleased to be able to offer both UHP Water and Sand Jet removal of existing playground markings.

In order to determine the best course of action to remove your existing graphics, we are able to offer a free of charge, no obligation site survey.

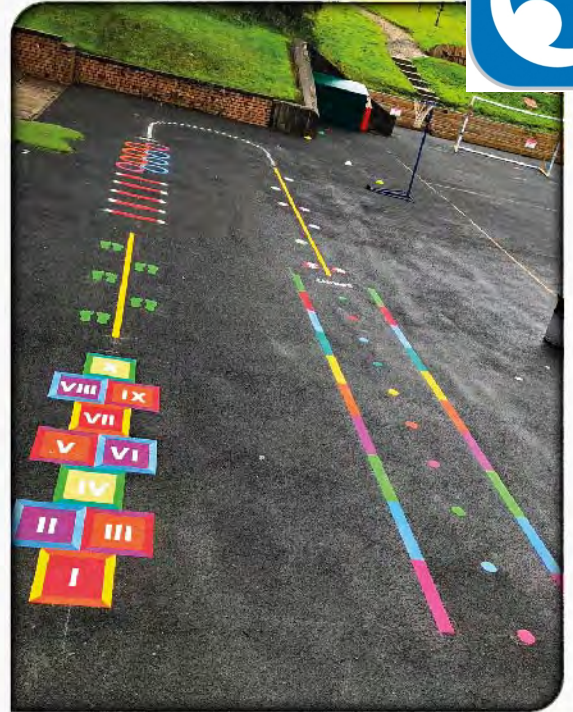

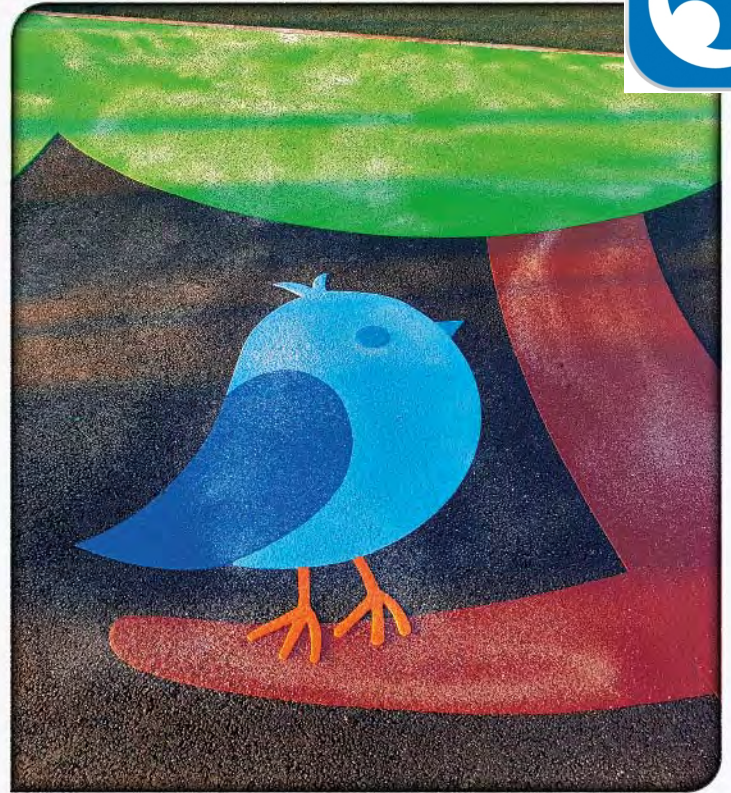

This allows us to take a look at the area, discuss your requirements and propose the most cost effective solution for your situation.

All playground marking removals prices are available on request.
